Luke 10:25-37

# The Parable of the Good Samaritan

- **25** And behold, a lawyer stood up to put him to the test, saying, "Teacher, what shall I do to inherit eternal life?"
- **26** He said to him, "What is written in the Law? How do you read it?"
- **27** And he answered, "You shall love the Lord your God with all your heart and with all your soul and with all your strength and with all your mind, and your neighbor as yourself."
- **28** And he said to him, "You have answered correctly; do this, and you will live."
- **29** But he, desiring to justify himself, said to Jesus, "And who is my neighbor?"
- **30** Jesus replied, "A man was going down from Jerusalem to Jericho, and he fell among robbers, who stripped him and beat him and departed, leaving him half dead.

Luke 10:25-37

# The Parable of the Good Samaritan

- **31** Now by chance a priest was going down that road, and when he saw him he passed by on the other side.
- **32** So likewise a Levite, when he came to the place and saw him, passed by on the other side.
- **33** But a Samaritan, as he journeyed, came to where he was, and when he saw him, he had compassion.
- **34** He went to him and bound up his wounds, pouring on oil and wine. Then he set him on his own animal and brought him to an inn and took care of him.
- **35** And the next day he took out two denarii and gave them to the innkeeper, saying, 'Take care of him, and whatever more you spend, I will repay you when I come back.'
- **36** Which of these three, do you think, proved to be a neighbor to the man who fell among the robbers?"
- **37** He said, "The one who showed him mercy." And Jesus said to him, "You go, and do likewise."

# Good Samaritan law

- In the United States and Canada, there is a law that exempts rescuers who voluntarily provide assistance to the injured and sick from liability.
- The purpose is to enable those who do good deeds without having to worry about being held accountable for causing casualties due to negligence, thus encouraging bystanders to respond to injuries and deaths.

# EMS Definition

- **Definition from Wiki:**
- Emergency medical services (EMS), also known as ambulance services or paramedic services, are emergency services that provide urgent pre-hospital treatment and stabilization for serious illness and injuries and transport to definitive care.

# EMS History – Ambulance & Triage

- **Dominique Jean, Baron Larrey** (8 July 1766 – 25 July 1842) was a French surgeon and military doctor, who distinguished himself in the French Revolutionary Wars and the Napoleonic Wars. An important innovator in battlefield medicine and triage, he is often considered the first modern military surgeon.

# EMS History – Triage

分級級數	類別	處置時間	類別	已歪的處置時間
第一級	急救復甦 Resuscitation	病況危急，立即處置，持續評估。	我的最急 Resuscitation	馬上幫我看診， 我來看急診不是慢診！
第二級	危急 Emergent	潛在性危急生命、肢體及器官功能狀況，需快速控制與處置，10分鐘內處置。	有後台很急 Emergent	先幫我看診， 不然我會連絡高層！
第三級	緊急 Urgent	病況可能持續惡化，30分鐘內處置。	拳頭很硬， 我很急 Urgent	你敢先不看診！
第四級	次緊急 Less urgent	病況可能是慢性疾病的急性發作，或某些疾病之合併症相關，60分鐘內處置。	門診等很久 Less urgent	急診不是不用等!?
第五級	非緊急 Not urgent	病況為非緊急狀況，需做鑑別性診斷或轉介門診，120分鐘內處置。	別人的都不急 Not urgent	別人都不用看診。

# EMS History

The **Crimean War** was fought from October 1853 to February 1856 between Russia and an ultimately victorious alliance of the Ottoman Empire, France, the United Kingdom and Sardinia-Piedmont.

<b>Date</b>	16 October 1853 – 30 March 1856 (2 years, 5 months and 2 weeks)
<b>Location</b>	Crimea, North Caucasus, Balkans, Black Sea, Baltic Sea, White Sea, Far East
<b>Result</b>	Allied victory
<b>Territorial changes</b>	Russia loses the Danube Delta and Southern Bessarabia.

## Belligerents

 Ottoman Empire	 Russia
 France <sup>[a]</sup>	
 United Kingdom <sup>[a]</sup>	 Greek Volunteer Legion
 Sardinia <sup>[b]</sup>	

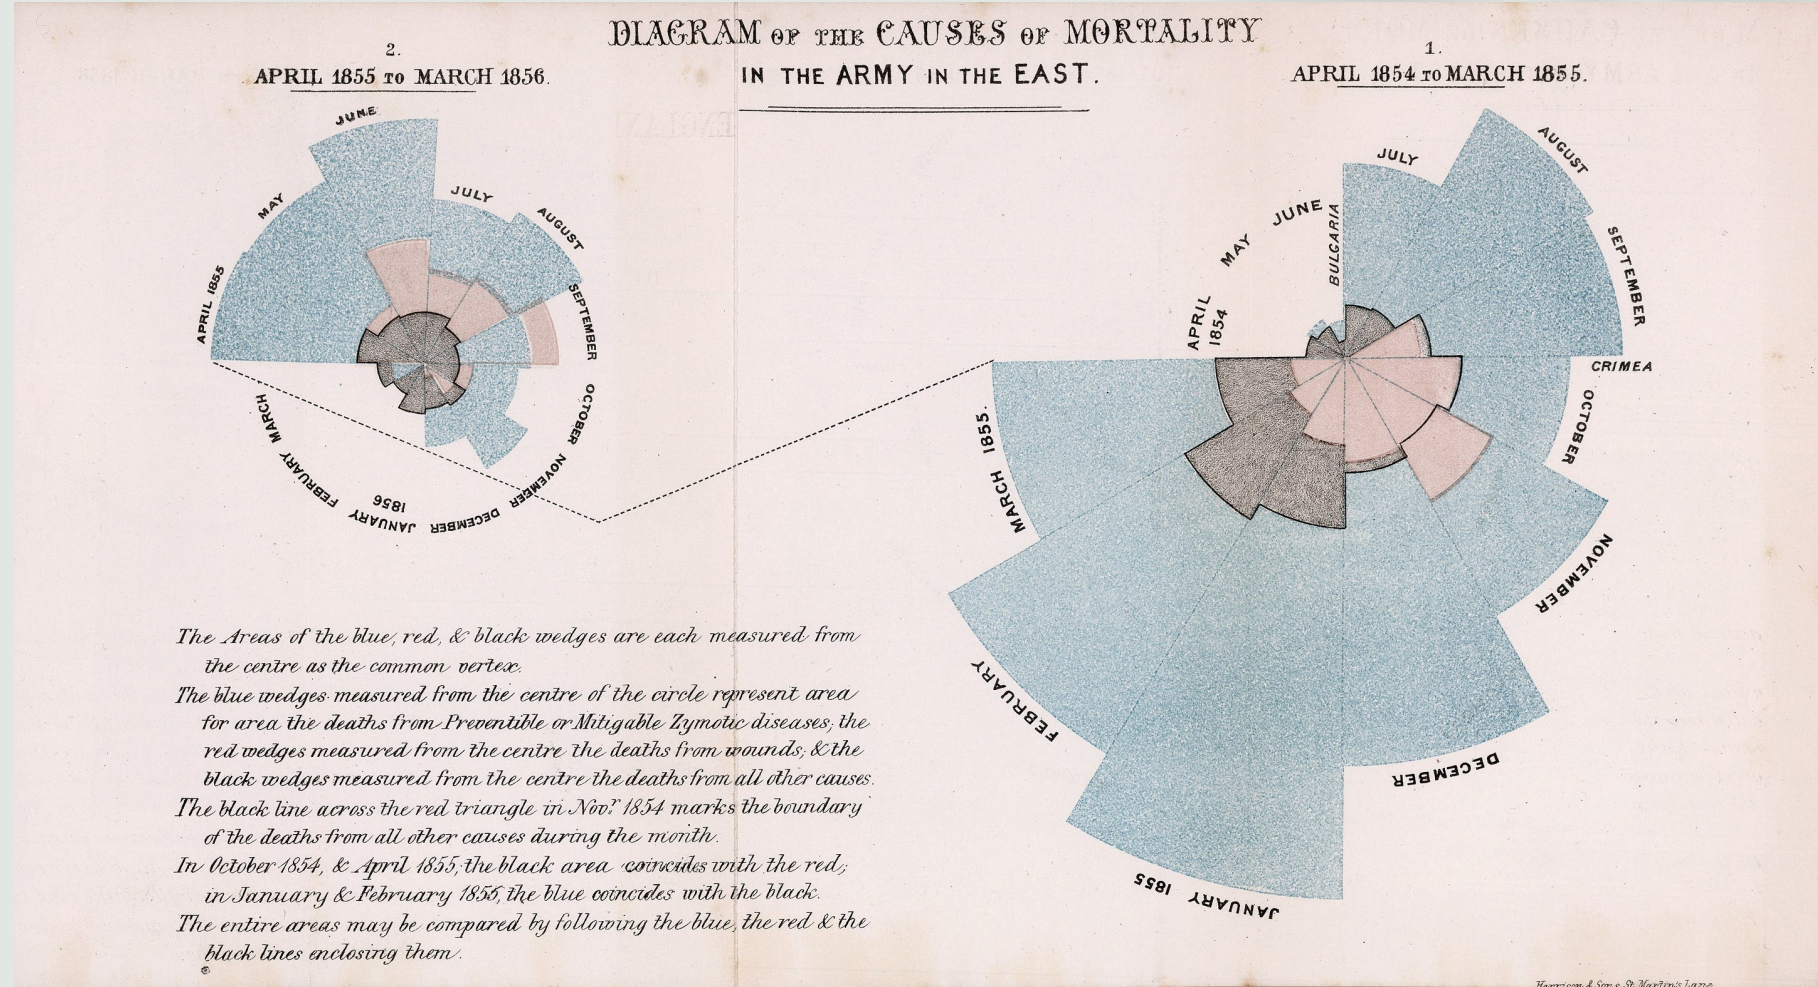

# EMS History

**Florence Nightingale** (12 May 1820 – 13 August 1910) was an English social reformer, statistician and the founder of modern nursing. Nightingale came to prominence while serving as a manager and trainer of nurses during the Crimean War, in which she organised care for wounded soldiers at Constantinople.

*Florence Nightingale. AN ANGEL OF MERCY. Scutari Hospital, 1855.*  
"When all the Medical Officers have retired for the night and when all darkness has settled down upon these miles of portable walls, she may be observed alone with a lamp in her hand, making her solitary rounds."

# EMS History

World War I : 1914  
 Mortality: 8.6%  
 Transport time: 8 hrs  
 Ambulance

World War II : 1939  
 Mortality: 4.5%  
 Transport time: 4 hrs  
 Ambulance, Plasma, Antibiotics

# EMS History

Korean War: 1951  
Mortality: 2.5%  
Transport time: 1.2 hrs  
Helicopter, MASH Units

Vietnam War: 1965  
Mortality: 1.9%  
Transport time: 27 mins  
Helicopter, Fixed wing

# EMS History

- Cleanse the mouth and nose **A**
- Compress the chest **C**
- Insufflate the lung with air **B**
- If this proves impossible, perform a tracheotomy. **B**
- Apply electric shocks to the heart **D**
- Place bladders filled with hot water on the stomach and feet.
- Administer a stimulant clyster
- Shake the victim vigorously
- Continue remedies above for hours.
- Finally, apply red-hot irons to the feet or other sensitive places.

Life-saving Measures ~by Herholdt JD and Rafn CG in 1800  
Baskett PJ. Resuscitation. 2003;58:283-8.

# EMS History

- In the 1600s, Thomas Sydenham suggested the use of tobacco smoke enemas to add heat and stimulation to the decedent, and this technique was used through the 1800s until better methods emerged.
- In the case of drowning, which remained the most common identifiable cause of sudden death throughout most of history, both tobacco smoke enemas and hanging individuals upside down were utilized.

2. 1530—BELLOWS METHOD

# EMS – Resuscitation

3. 1770—INVERSION METHOD

4. 1831—DALRYMPLE METHOD

# EMS History – Resuscitation

In the mid-1700s, there was greater awareness about the life-sustaining concept of breathing and thus efforts began to focus on recreating inspiration and expiration, such as rolling the dead over a large barrel, hanging them over the back of a horse which was forced to trot, and repeatedly tightening and loosening a cloth tied around the chest.
